

SOMOS International School

Embassy Event with Colombia

Ms. NORIE Sakae, Cultural Affairs and Press of Colombia embassy came to visit the SOMOS Intr'l School to share the rich cultural features of Columbia.

The SOMOS students and their parents explored about Columbia as she shared some examples of the Columbian culture. She even showed us how to dance salsa and we all dance along with Colombian music. It was really fun!!

The SOMOS students presented their class assignments after a two month study on Columbia. They all worked very hard to put together their presentation and items. They all did a great job!

Since Columbia is the second largest exporting country of flowers, and the Mother's Day was just around the corner, we all made a small gift of preserved carnation which was supported by Florever, the Columbian Preserved Flower Company. A nice gift for mothers.
